

## ACH with MerchantE.

Expand electronic payment acceptance with ACH

ACH with MerchantE offers you a safe, simple and secure means to accept payments directly from customers' bank accounts. As businesses transition to electronic payment options for their customers, ACH is a cost-effective, secure alternative to checks.

A simple integration to MerchantE offers you a flexible, centralized payment acceptance environment and allows your customers to pay with their preferred method, selecting from ACH, credit, debit or prepaid cards.

ACH can be used for one-time and recurring payments and is supported by MerchantE's Hosted Payments, WebCommerce, NetSuite ERP and MerchantE Invoice Link for NetSuite.

### Advantages of ACH Payment Method

- Compelling option for businesses still paying by check
- Typically, lower cost than credit cards or check processing
- Eliminates employee intervention handling of checks
- Accelerates receipt of funds compared to checks
- Reduces risk of fraud and cost of returned checks
