

# Merchant Services for Technology & ISVs

A powerful revenue-sharing program for you and seamless payment acceptance for your customers

## MerchantE's Partner Program

As an end-to-end payment processor serving U.S. businesses for over 20 years, we have worked with over 100 software vendors to help them enable payments. This includes vendors in Property Management, Construction, Health Services, ERP Platforms and POS Systems.

Payment processing extends the value of your software or application by integrating payments within your native workflows creating a more seamless user experience and customer experience, plus it usually enables your software to provide more effective reporting.

## Full-Service Payment Processor

- All major credit and debit cards including Visa, Mastercard, American Express and Discover
- Advanced security to safely store payment card details for convenience of returning customers and recurring payments
- Developer-friendly API library for ease of integration to business software with user-friendly testing and certification process
- 99.99% stable system uptime ensures reliability of payment transactions
- High-touch, dependable customer service available 24/7

## Portfolio Management Advantages
