

Link-to-Pay for NetSuite.

Get Paid Faster and Manage Cash Flow Better

Bring accounts receivable into the modern age! Link-to-Pay for NetSuite adds a Pay Now link to quotes and invoices created in NetSuite speeding up bill payment. With an embedded payment link or button, it is easy for customers to click to pay using their preferred payment method including ACH, Visa, Mastercard, American Express, Discover and UnionPay SecurePlus. The result? Faster receivables, more visibility into your cash flow, and more peace of mind.

Transforming Accounts Receivable

- Generate invoices and quotes within NetSuite as usual, with your payment button or link automatically included
- Reduce your days sales outstanding (DSO) by giving customers easier ways to pay
- Reduce the time, errors, and costs of handling paper checks and inputting payments manually
- Make it easier for customers to make future payments, allowing them to securely store their payment method
- Reconcile all payment card and ACH transactions in NetSuite automatically after a customer makes a payment

Check out our new features!

Customer Deposits

NetSuite users can accept deposits on sales orders when customers use Link-to-Pay.

Statement Pay

Customers can make a payment applied to multiple invoices.
