

MerchantE for SuitePayments.

It's already in NetSuite. Just Turn It On!

Accept Credit, Debit, Pre-paid and ACH payments within native NetSuite

- **Streamlined Accounts Receivables**
Add the MerchantE Invoice Link or pay now button to your e-Invoices to get paid faster and more securely, with payment logged on NetSuite customer record.
- **Automated reconciliation**
Reconcile transactions with bank deposits within NetSuite.
- **Cost-saving options for B2B and B2G transactions**
Take advantage of savings for Level II and Level III processing on eligible transactions.
- **Improved customer and employee experiences**
Business continuity, consolidated reporting and streamlined buyer experience when you use secure tokens to import card data from legacy billing and external platforms.

"We're able to handle many more transactions with the same staff... we're carrying a much lower receivables balance even though our total volume of business is higher."

Aimee Gilbreath, Executive Director, Michelson Found Animals Foundation

Check out our new stuff!
