

# Payment Acceptance for the CBD Industry.

Credit card processing and more, for growing and emerging businesses

## Growing your CBD business just got easier with MerchantE

You don't have to go off-shore or work with a fringe processor, nor deal with hidden fees to accept credit cards. MerchantE, an end-to-end payment processor serving U.S. businesses for over 20 years, now offers reliable and affordable financial services to CBD businesses.

## The Power to do More

Our innovative and personalized approach to payment processing helps growing CBD businesses take control of their money.

As one of the few end-to-end payment processors, there are no 3rd party authorization or settlement partners, giving you greater visibility and support during the entire payment process and decreasing the number of parties you pay transaction fees to.

## Payment Acceptance Options

### Hosted Payments

Customer inputs payment online using any major credit or debit card

### POS EMV Terminals

Accept in-person chip card payments

### Virtual Terminal

Input manual payment from any connected device

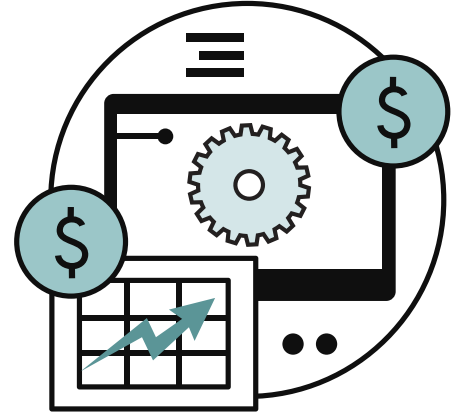

### WebCommerce

Easy to DIY to build a shopping cart or website and sell on Instagram or Facebook

[Learn more](#) about how MerchantE is serving businesses historically labeled as high risk for payment processing.
